JCCA Receives 2nd Installment Of JC History Project

d installment of manuscript e Canadians has been receiv- was reported from the Na- in Toronto.

g of the National Executive day, November 16, George National JCCA History Edi- he had recently received Ken n of manuscript comprising f the history. He reported ed his chapters; that is, the pters are to be numbered d that the first installment tled the "Yellow Peril and ally chapter two is now to be chapter three in the history.

Tanaka reported Adachi's submission covers in considerable detail the early era of Japanese history preceding emigration of Japanese people to the western world. The Tokugawa period of rigid seclusion from the world and the Meiji period of open door policy are dealt with by Adachi. Chapter One entitled First Contacts, comprising 63 pages of manuscript and over 17,000 words in length including 6 pages of appendices of 53 supporting notes, provides the introduction and the background to the history that unfolds on the early years in Japan and Canada of the Japanese immigrants.

Chapter Two of equal length entitled Confrontation: 1895-1906, provides a picture of early settlement in Canada, the international scene of the Anglo-Japanese Alliance and the war against Russia by Japan: the increasing apprehension of the white people against the Japanese immigrants in B.C. in the fishing, mining, lumbering industries and other areas of work all leading up to the great riot of 1907.

Tanaka reported that after careful reading and study of Adachi's manuscript, he felt certain the history, when completed and published, would become a very significant and important work of conclusive nature, bridging a gap in the Canada-Japan relationship through the remarkable story that is the history of the Canadians of Japanese ancestry.

been kept in a generally stable state by using a doughnut-shaped "magnet bottle."

He was addressing the annual meeting here of the American Physical Society's plasma physics division.

Dr. Okawa is head of the controlled fusion program at General Atomic of San Diego—a division of General Dynamics Corp.

He said that heavy hydrogen plasma was injected into the 50-inch (127-centimeter) diameter bottle."

Describes Experiment

The plasma streamed around for about 100-millionths of a second, attained speeds as high as 600 miles per second and temperatures of about 1,000,000 degrees centigrade before being quietened down by the bottle's magnetic force.

The plasma remained stabilized for about one-thousandth of a second, the goal of the experiment, according to Dr. Okawa.

According to theory, however, a way must be found to keep the heavy hydrogen stable for one-tenth of a second at temperatures of about 100 million degrees C, several times hotter than the sun's interior, before scientists can ignite a controlled thermonuclear reaction and extract useful energy from it for the production of electricity.

Scientists hope that they will be able to create controlled thermonuclear reactions for use in gigantic electrical power plants, using as inexhaustible and inexpensive fuel—the heavy hydrogen that is abundant in ocean water.

The sun's energy comes from the conversion of hydrogen atoms into helium in an uncontrolled thermonuclear reaction.

In slightly different form, uncontrolled thermonuclear reactions are obtained on earth in the form of hydrogen bombs.

Solution Widely Sought

Ever since the first hydrogen bomb was exploded by the United States 15 years ago, huge sums of money has been spent by various governments to find a way to control the energy and reap its enormous benefits.

Major work is under way in the United States, Britain, Japan, Italy and the Soviet Union, and it is the only field of nuclear research in which information is freely exchanged between East and West.

One of the biggest steps forward was reported in 1963 by Dr. M. S. Ioffe of Moscow's Kurchatov Institute.

Consul General Becomes 1st Non-Canadian To Win N.JCCA Gold Pin

By T. UMEZUKI

TORONTO.—For the first time in its history, a person not a member of the Japanese Canadian Citizens Association has been awarded the National JCCA Gold Pin — the outstanding award for work in Japanese Canadian communities across Canada. He is Japan Consul General S. Saiki.

Mr. Saiki, who will soon be leaving for a new post in India, was given the coveted Gold Pin at a farewell party in his honor on Sunday, November 13th at Nikko Garden. An especially large number of guests attended.

The award was given to Mr. Saiki in recognition for promoting good relations between Japan and Canada, particularly in Ontario, his many contributions in the Japanese Canadian community such as in the Japanese Language School, the works of the JCCA, the J.C. Cultural Centre, and his keen interest and kind regard for the senior citizens at the J.C. Nipponia Home For the Aged. Toronto JCCA President, Roy Sato made the presentation.

"Mr. Saiki has always shown a good understanding of Japanese Canadian problems," said National JCCA President, Edward Ide. "One of the many achievements was Japan Day in Toronto."

Mr. Saiki expressed his deepest thanks for the award and praised the character and sincerity of the Japanese Canadians. "The only way to cooperate with such sincere people is to be as sincere as possible yourself. I hope that I have succeeded," he said.

The party, sponsored by the Toronto JCCA, was mced by M. Amemori. Addresses were given by: Isseibu President I. Kawashiri, Toronto JCCA President Roy Sato, National JCCA President Edward Ide, J.C. Cultural Centre President Sam Hagino, Mr. T. Ide, Mr. Saul Kadonaga, and Mr. S. Sato of the Toronto Japanese Language School.

Japan's Kabuki Theatre Signs Expo 67 Program

MONTREAL.—Expo 67 this week announced that Japan's Kabuki Theatre will be part of the program for World Festival of Entertainment to be held in Montreal as part of the 1967 world exhibition.

It will be held at the Theatre Maisonneuve from August 2 to 12.

The Kabuki Theatre represents Japan's classical stage tradition. Male actors devote their entire lives to the elaborate production of centuries-old plays — presented in song and dance.

Wpg. Has Only Japanese Music Prog.

WINNIPEG.—The schedule for the International Hour program of Japanese music on CJOB-FM for the months of November and December are as follows:

November 2nd, November 23rd (there is a football broadcast on the 16th) December 7th, December 21st.

You will note that Mr. Beyer stays in one place during each of his programs instead of going from place to place, e.g. it may be Tokyo, or Nagasaki, etc.

The International Hour program draws a letter once a month from those sent in by the listeners wishing to express their views on the program. The person whose letter is drawn receives a Sony transistor radio. Letters should be addressed to Radio Station CJOB-FM, care of Hubert Beyer, 930 Portage Avenue, Winnipeg, Manitoba. —M. JCCA

Floating Fair To Visit Canada

VANCOUVER. — Canada will be paid a visit by a "floating fair" from Japan next year. The sleek, 12,611-ton "Sakura Maru," a liner fitted out with 420 display booths, will call at Vancouver and Montreal.

The booths aboard the vessel will contain the latest Japanese industrial products, machinery and technology.

Spokesmen for the Japan Industry Floating Fair Association, organizers of the trip, said the visit would be intended "to promote understanding and trade relations between North America and Japan."

The air-conditioned Sakura Maru is equipped with a banquet hall and stage accommodating 500 guests, a VIP room, a cocktail lounge, rooms for business talks, and three escalators and an elevator.

Jessie L. Beattie Negotiates Film Plans For J.C. Book

TORONTO. — Writer Jessie L. Beattie, author of the Japanese Canadian novel "Strength For The Bridge" is reported to be in New York this week discussing plans for a film on her book.

Miss Beattie will have an article in this year's New Canadian Holiday Issue.

[illegible] Ties [illegible] Stadium Win Over Yamada

TORONTO.—With less than two minutes left in the game, Bob Masukawa fired a low drive to give Rits Kinoshita a 3-all tie with Japan Camera. Kelly Toyota and John Fujiwara got the other Rits' goals. Roger Inamoto, who has scored as many goals as two other teams in the league, slammed in two while Bill Davie added the other goal for Japan.

In the second game, George Nishikawa practically owned the puck and stickhandled around every Yamada player who tried to take it away. His fine efforts and accurate shooting paid off for 3 Stadium goals as Stadium outscored Yamada Studio 4-1. Herb Ashizawa blasted a low slap shot from just inside the blueline for the other Stadium goal. For Yamada's goal, Gen Hamada picked up the puck at his own blueline, deked 3 Stadium defenders and before the fourth slammed him into the boards, gently eased the puck to Ken Madokoro who quickly banged it home.

Dufferin Cleaners played a solid two way game to shut out Mickey Sato 3-0. After two scoreless periods, Rick Yoshida fed a pass to Daly Baba who saw Ken Davie flying in on the left side. The latter picked up the perfect return pass and flicked the puck into the upper left hand corner. Frank Shiraishi seemed to have fanned on a slap shot but the puck had enough momentum to slide underneath a surprised Bob Yoshiki for Dufferin's second goal. The third Dufferin goal was a picture play. Benny Mumata raced in with two wingers using them as decoys. Then Benny pulled the trigger before Bob Yoshiki could move.

Anyone interested in playing exciting hockey on Sunday afternoons, please cotact Buddy Madokoro at 636-9669.

A statistician is urgently needed for the league. Anyone interested, please contact Gen Hamada at 766-4831. (May it be added that the press box is comfortably heated.)

The sponsors of the league have donated well but for added costs such as referees, equipment, etc., the players are urged to sell raffle tickets to offset the treasury's deficit.

NEXT WEEK: SUN. NOV. 20.

3 p.m. Yamada Studio vs. Ritz Kinoshita

4 p.m. Japan Camera vs. Mickey Sato

5 p.m. Dufferin Cleaners vs. Stadium Garage.

L.A. Dodgers Find Japanese Improved

SAN FRANCISCO. — Some members of the Los Angeles Dodgers baseball team are squawking bitterly about being subjected to a tour of Japan, all expenses paid, wives included, while playing a few exhibition games.

Their attitude comes under the heading of "How Times Do Change," and the change has been fairly recent. When Casey Stengel led the Yankees to the Orient, preceded and followed by lesser-publicized baseball visits, the photos and stories indicated merriment almost beyond description. The attitude was "Wish You Were Here Because Ain't We Got Fun."

Why did Sandy Koufax, Don Drysdale and Wes Parker politely decline an order from the boss to join the tours? Why did Maury Wills rush back to Los Angeles without warning, when at least, he could have discreetly sat on the bench or bowed low enough not to hurt his celebrated knee? Why have other Dodgers groused about such things as not knowing the details, not being told of the problems, enduring untold hardship, etc., etc.?

Well, one item to consider is Japanese baseball itself, in the last 20 years the calibre of baseball there has improved, and against a non-power club like the Dodgers offer strong competition. Where's the fun if you have to fight for your reputation every game? In other times the American batsmen would knock down the fences and the Japanese batsmen would hit daintily pop flies to the infielders and everybody would be happy. In Japan, its heard, the fans wanted Maury Wills to steal every time he got on base and were vocally disappointed when he didn't. For Maury, perhaps, this ceased to be fun.

Another difference was something nobody discussed too loudly. In earlier times a fellow could take advantage of the money exchange, when an American dollar bought many more yen, and when an American baseball player was a demi-god to a nation that had gone mad for the new game. Ball players were able to buy the finest products, from gems to silks to art works, for much less than wholesale after the money exchange.

A ball player I knew told me it was like buying things for 20 cents on the dollar . . . he brought home three rooms of elegant Japanese furniture for less than $300. Those deals are past, and it's just as well. As the purists will say, that's NOT baseball.

名もなくコツコツと 村議會の裏方さん

勲七等瑞宝章を受けた山形県警の「村の駐在さん」高橋喜三郎さん。

……………

高橋さんは、明治四十四年山形県巡査になってから昭和二十六年に退職するまでの三十九年と五ヵ月間「村の駐在さん」で通した。名利を求めず万年平巡査だったが、うち二十四年もいた竹森駐在所時代は、村のあらゆるもめごと相談ことを持込まれ、村議會の「常任顧問」・村人からは「乃木巡査」のニックネームで親しまれ退職后ついに村の住民となった。

高橋さんは尾花沢出身。約四十年の警察勤めで現赤湯署管内の五つの駐在所を回ったが、うち置賜代村の竹森には大正十四年から、昭和二十五年までいた。

「人に憎まれないためにまじめにやらなければ」と酒やタバコもやらず、仕事一筋に打込んだ。曲ったことは大きらい。村人の悩みごとを親身になって聞いた。その誠実と人情味、それに当時たくわえていたヒゲがニックネームの由来だ。歴代村議會の「常任顧問」にはあらゆる難問題が持込まれた。議員以上に働いたと地元の人たちはいう。

高橋さんの在職中、管内の未検挙事件は一件もなく受けた表彰は五十回以上。大の世話ずきでもある。戦時中、東京から疎開して来て知合いがなく困っていたある一家五人のため、走り回って借家をみつけてやった。これがキッカケで、いまでも年一回、一家は必らず高橋さん宅を訪れ、思い出話に花を咲かせるという。

いまは中学の教頭をしている長男一家と五人暮し。約二キロ離れて住む末娘の一人っ子のところへ毎日午后自転車でかけて行って遊び相手になるのがこのごろの日課。「長年警察に勤務しましたが、大先輩がたくさんいるのに私が受章できるなんて――。こんなうれしいことはありません」とひたすら喜ぶ高橋さんである。

老党主蹴り落す 一年内に引退へ

保守黨大會を少壯代表牛耳る

【オタワ】今週オタワのシャトー・ローリエ・ホテルで行われた全國青少保守黨代表者会議で、ディフェンベーカー黨主の信任を問うことを主張してきたダルトン・キャンプ全國会長は、ディ氏支持派のマッニー弁護士を五六四票對五〇二票で破つて、會長留任となり、キャンプ派に凱歌があげられた。

また同黨大会は、一九六八年一月までに保守黨主会議を行うという決議案を五六三票對一八六票の大多數で可決した結果、ディフェンベーカー黨主は來年一年以內に黨主を辭任するか、政界から引退の余儀ない運命を迫られるにいたっている。この大會では徹頭徹尾キャンプ派の少壯代表が牛耳り、保守黨に新しい息吹きをつぎ込んで、時代に即應した若手政治家を議會に送るべきであることをハッキリ示した。

苦杯をなめさせられたディフェンベーカー前首相は『傷ついたが、致命的でない』と頑張っており、保守黨員たちから、變らない恩顧をうけてはいるものの、保守黨大会が彼を『仕事を一應なし終って引退すべき老黨主だ』と、蹴りとばしたことで、國幣諸州の各代表はフンガイ、大会終了を待たずにそれぞれが引揚げて歸途につき、黨內に深い分裂が刻まれたことはかくしきれない事實となっている。

依然、チーフだ！

保守黨議員の大多數が忠誠

オタワでの保守黨年次大會で、ディフェンベーカー黨主が信任投票を一年以內に行なうべし、との決定を行い、黨首選出黨大会の開催をきめて大会は終ったが、ディ氏はこの大会の決定を認めず黨主追い出しの策謀であるとし、保守議員らの擁護して、あくまで黨主の座を譲らないとの決意を固めているとの見方が強くされている。

ディ氏自身も『大會は政治的知識のない若者たちを反對派が甘い汁をのませてうやむやのうちに無茶な決定を作つたものだ』といつており、保守黨議員も同様の考え方で九十六名の保守議員の大部分は党主擁護の旗印を高くかかげて、大会の決定を無視しようとしている様子である。

しかし、議員中には『ディフ（ディ氏）も引退してよい潮時であろう』という者も數名あつて、ディ氏が、このさい潔よく黨主をやめるか、政界から引退すべきだという見解を持っている

日本國民

生活の未來像

【東京時事通信】首相の諮問機關である國民生活審議会は今週總會を開き、二年がかりで審議したいわゆる"國民生活の未來像"に對する答申を決めた。

答申は日本人の生活が十年後にはいまの西歐なみに、二十年後にはいまの米國なみになることを目標にし、これを實現するための政策として(一)物價の安定と土地問題の解決(二)住宅の整備(三)交通事故、公害の防止(四)社会保障の充實などを重點的にあげ、全体として人間尊重の政策を強く要望しており、國民生活にもつとも關係の深い住宅については五年後に『一世帶一住宅』二十年後には一人一個室(中國案では十年後)の實現を目標としている。

カナダの二つの中國案

國府が眞向から反對！

【國連】カナダ國連議會で今週『二つの中國』決議案を提出するもようであるが、台灣政府の代表團は『二つの中國』案を認めてまで、國連內にふみ止まる意思は毛頭ないと眞向から反對しており、二つの中國案は國府のみならず、中國本土の國民を侮辱するものだといつている。

米國は台灣代表と話しあいがつき、二つの中國案に反對することになっているが、アルバニア、タンザニア、パキスタン、ルーマニア、キューバ、アルジェリア、コンゴ、ギニア、マリ、シリア諸國は『台灣政府を國連と國連付屬機關から追放する』という決議案を提出することに同意している。

一方、中共[illegible]では、カナダが二つの中國案を提出するかも知れないとするニュースに對して言明をさけているが、國府と同席して國連メンバーになることは従来の方針によって承認することは考えられず、中共自体もかかる條件付き加盟には考慮を拂わないだろうという。

遺体さがし難航

安全機なのにと生みの親語る

【松山時事通信】全日空遭難機の捜索は巡視艇など三十四隻で引き續き行なわれているが、小やみなく降り續く雨空の下、潮流も激しく遺体の捜索は難航を續けている。原因については着陸失敗後、再上昇して左旋回したときの高度が約三十メートルと非常に低かった点が確認されているので『失速』との見方が強くなっており、今後の究明は低高度、失速がパイロットの操縦するものかなどに重點がおかれよう。

ワイ・エス一一の生みの親、國村秀政日大教授は十四日、全日空機の事故について次のように語つた。

ワイ・エス一一はプロペラ、ジェットの併用機で安全度が高く、一千メートルの滑走路があれば十分着陸できるように設計している。しかし人間が操縦していることだから千五百メートルぐらいの滑走路がほしい。それともう一つくやまれてならないことは計器着陸装置が羽田を除いてほかの飛行場にはないという現状だ。このため航空審議會はこれら設備を早急に整備するよう答申、計器着陸装置などをつけるよう計畫しているところだつた。ワイ・エス一一は海外各國から好評で、とくに米國から大量の注文が出始めたところだが、今回の事故で急に注文が減るとは思われない。

オ州自由党主アンディー・トムソン氏は在任二年で、今週病体を理由に辭任を公表した。黨主公選で第二者となつたチャールス・テンプルトン氏が新黨主にあげられる可能性が強く、黨主選擧まで一時代理黨主が指名されることになろう。

恩給増額案

議會に提出

【オタワ】貧困の老年ペンショナーに對するペンション増額(月三十弗まで)案が今週オタワ議會に提出された。増額は來年一月から實施されるものである。今年七月老年恩給額を、各ペンショナーの收入にてらして増額すると發表されたが、ペンション以外に收入のない者の最高ペンションは月百五弗にまでふやされる。

Nisei Artist Is Praised As Great Eskimo Artist

By ROBERT FULFORD

A Brazilian art Critic, after viewing Roy Kiyooka's paintings at the Sao Paulo Biennial last year, described him as "an outstanding Canadian painter of Eskimo origin." Kiyooka found this amusing but wrote to the critic and explained that, no, unlike many distinguished Canadian artists, he wasn't an Eskimo; he was a Japanese Canadian.

But looking at the Kiyooka show at the Laing Galleries this week you can at least partly understand the Brazilian's confusion. Once someone mentions the word "Eskimo" these pictures immediately begin to resemble the Arctic: Cold colors, great lonely spaces, vast expanses of blankness. You can imagine an elaborate critical theory of his work being based on his Arctic background.

Kiyooka, however, is a highly sophisticated painter whose main influences are international. He studied at Emma Lake, Sask. with Barnett Newman and he has been influenced by Mark Rothko. He now works in Montreal and teaches at Sir George Williams University. He exhibits in New York as well as Toronto and Montreal.

His work is a part of the tendency toward "color field" painting. He uses flat-painted color areas and large shapes. He seeks no connection between his pictures and any other objects.

"I don't want them to be translatable into other forms," he said the other day. "I want them to be distinct things, to be really present, with total clarity. I think that's a very simple proposition."

The pictures, however, are far from simple. They are endlessly subtle. Take "Homage to Debussy," for instance. This is 10 feet long, a composition of three canvases, in which the design elements are a series of ovals. Kiyooka has used throughout the picture only one color, ultramarine, but has achieved a variation in color values through various densities of pigment. Some parts have only three coats, some as many as eight; the rest are somewhere in between. The result is a richly suggestive painting.

Some of his other pictures are less subtle than this one, but all of them are strictly ordered, controlled. They achieve both a stunning first impression and a lasting resonance.

No. 1 Suicide Country . . .

Family Suicide Pacts Latest In Land Of Hara Kiri

TOKYO.—The recent deaths of nine persons in a single day as a result of family suicide pacts has focused new attention on Japan as the Land of Hara Kiri.

Although Tokyo's 3,000 suicides recorded last year were fewer than the number who took their own lives in West Berlin, Japan is still the No. 1 suicide country with 24 out of every 100,000 persons dying at their own hands.

Here in this island nation people leap over waterfall, jump into volcanoes, hurl themselves in front of trains, electrocute themselves, blow themselves up with dynamite, swallow sleeping pills, poison and methyl alcohol, burn themselves to death, hang themselves, gas themselves, drive over cliffs, jump into wells, slash their throats—yes and some even disembowel themselves in the traditional way.

The victims range in age from seven to 87, with more women than men killing themselves, more old people than young and more students than businessmen, farmers or housewives.

A bewildering variety of reasons are offered by the suicide victims, from failing in an examination to losing a bet, from illness, poverty and debt to "a vague inquietude over my own future," as famed writer Ryunosuke Akutagawa (Rashomon) put it.

Kabuki Actor

One of the most interesting cases of suicide occurred recently when an 84-year-old Kabuki actor, Danzo Ichikawa, gave a farewell performance, went on a pilgrimage and disappeared into the Inland Sea. On the boat he left behind only a pair of sandals and a poem reading: "For an actor the way he dies matters."

Farmers are often held up as the backbone of a nation and are generally considered very conservative, stable and mentally healthy citizens. But in Japan suicide takes a high toll among agrarian workers especially during drought or cold spells.

Northeast Japan was hit by a rash of farmer suicides earlier this year when 13 killed themselves during a two-month period over crop failure.

Many of the suicides in Japan can be traced to family pacts in which the children are generally innocent victims. Three family pacts one day recently took nine lives.

A man and his wife in their 50's and their 25-year-old son all hanged themselves due to a combination of reasons. The father's business was near bankruptcy, the mother's health was failing and the son was suffering from polio.

In the second case, a mother drowned herself and her two small daughters in Japan's largest lake, Lake Biwa, because her husband had stopped sending money home to the family after he had gone to nearby Kyoto.

In the third incident, the mother, suffered from a breakdown, killed herself by taking gas, taking along her six-year-old and four-year-old daughters in the process.

Lack Confidence

Some suicide-bent people lack confidence and try killing themselves in a double-barrelled act. For example, a mother and her son, after taking poison, jumped into a well for good measure.

Another disemboweled himself and then severed his jugular vein to make sure. A third stabbed himself in the neck, and when that didn't work, tried to burn himself by setting a forest fire. He survived both attempts.

One enterprising youth attached wires from an electric fan to his metal watchband and a beer opener taped on his leg. Other wires from the fan led to a time switch that was set to click on at 5 a.m. After taking sleeping pills, he plugged in the fan and went to sleep. The maid found his body the next morning after he had died automatically at the appointed time.

Obviously, many would-be suicides survive. Usually, the ratio is two survivors for every "success." A man who was despondent because his wife had left him, jumped off a bridge into a river only to find the water too shallow. In fact, it only came up to his waist, and to make matters worse, his feet were firmly stuck in the muddy bottom.

The banks of the river soon became crowded with spectators watching the futilely flailing victim trying to extricate himself. When a reporter asked why no one came to his aid, the reply was: "He looked like he was having such fun."

One man jumped off a 200-foot cliff into the sea, but halfway down a protruding pine tree snagged his pants and broke his fall. When a fisherman picked him up from the water, he exclaimed: "I didn't realize it was so difficult to die."

H-Bomb Tamer . . .

Dr. Okawa whose work was based on the findings of the Russian scientists, said: "We have been brought much closer to determine whether a true thermonuclear device can be built in the shape of torus (magnetic bottle).
